

LAB EQUIPMENT

LAB FORMING MACHINE- DLF-5

This combined all in one machine can hold batch, form and cool hard and soft candy. Different shapes can be prepared by changing small candy forming die in a few minutes.

LAB COOKER VCL-5

Stainless steel thermic oil jacketed cooker fitted with infinity variable direct mounted geared drive and digital Temperature indicator. This is capable of vacuum cooking of Candy, Chew, jelly or caramels, upto 5 kg capacity per batch.

LAB PULLING MACHINE LPM-5

Stainless steel vertical pulling machine for areation/pulling of hard candy & caramel mass fitted with variable speed and timer, upto 5 kg capacity per batch.

LAB COATING PAN DLP-3

Stainless steel laboratory coating pan suitable for sugar coating, coloring, and polishing. Can be supplied with optional hot air blower spray system and ribs, upto 5 kg capacity for 12" pan 10 kg capacity for 24" pan.

LAB DROP ROLLER LDR-12

Suitable for forming soft, hard candy and various other products in small quantities Available in hand operated or variable speed motor drive.

MOULDING LINE FOR CANDY / LOLLIPOPS JELLIES / TOFFEES

Deposited candy line suitable for making crystal clear hard candies, two color stripe Candies, milk caramel and sugar free candies. We manufacture deposited candy plant with related machines such as thin film cooker, flavour & citric dosing system.

LAB CANDY/JELLY DEPOSITING MACHINE AND CHOCOLATE AND HARD CANDY COATING/ POLISHING MACHINES

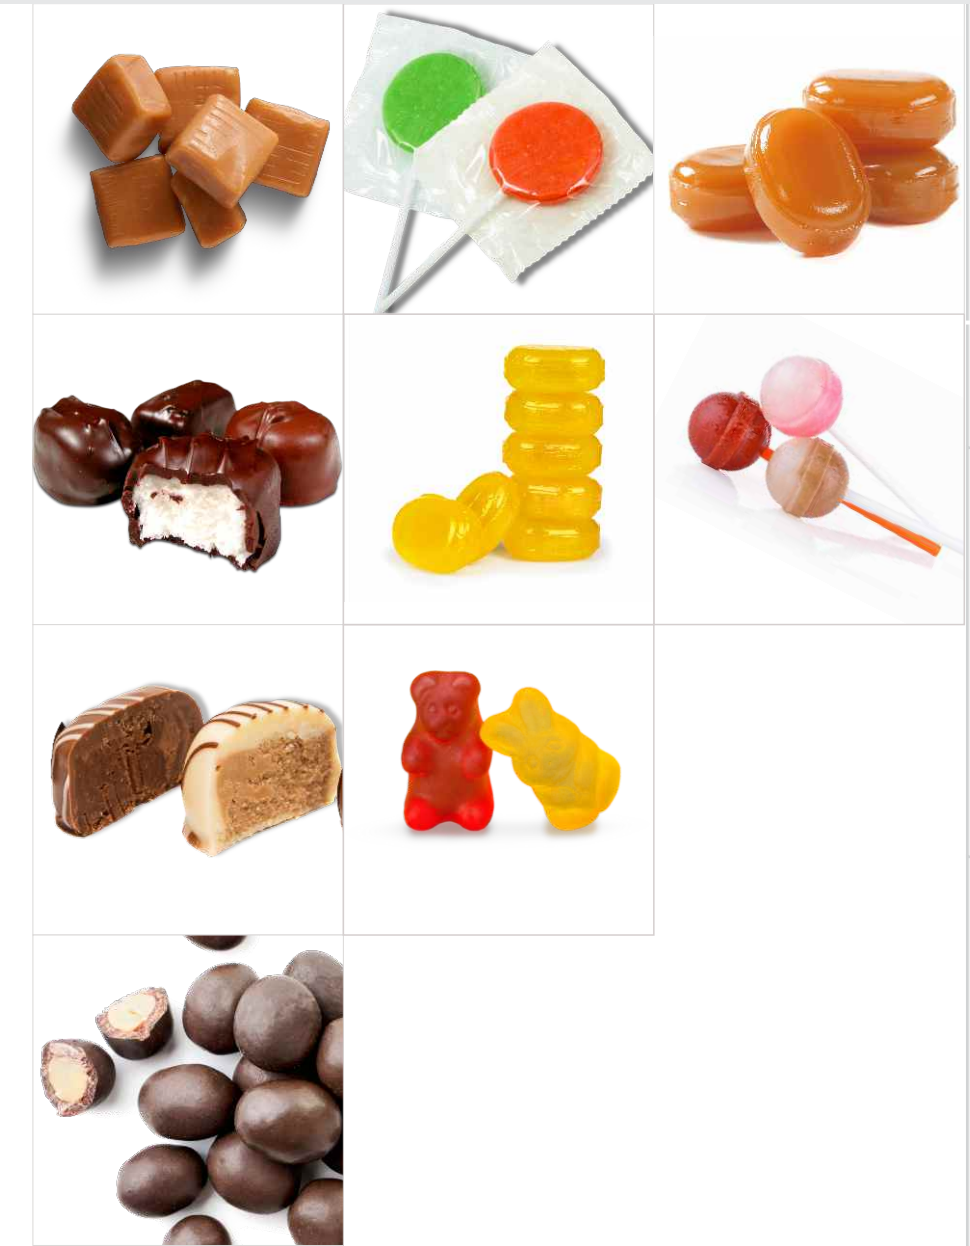

The Depositor is designed for making small batches of deposited Hard Candy, Chocolates, Caramels, Gummies and related products. The entire driving system is controlled by servo drive, PLCs, and touch screen. It is also an ideal lab equipment for producing high-quality products while conserving space. This machine can produce one color, two-color stripe depositing, two-color double layers depositing, central filling, clear hard candies.

Complete Solutions For

CANDIES | TOFFEES | LOLLIPOPS | GUM | FONDANT | GUMMIES | CHOCOLATES | CEREAL
BAKERY INGREDIENTS | NUTRACEUTICALS | CANNABIS APPLICATIONS

ECLAIRS & CENTRE FILLED CANDY

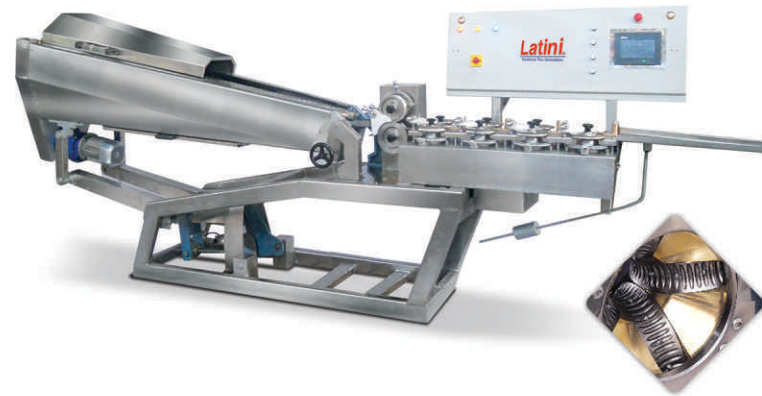

AUTOMATIC FLOW PACK MACHINE DP-10

Highly versatile flow pack machines suitable for various type of Candies, Gums and Chocolates. Equipped with Servo drive. Output upto 1000 pcs/min.

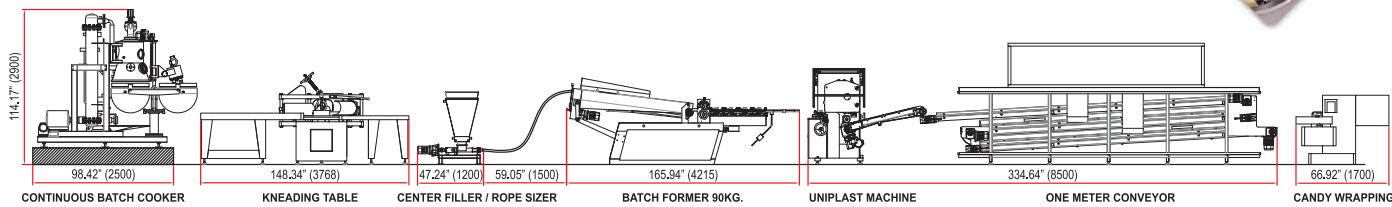

UNI PLAST-O-PLAST SWEET FORMING MACHINE DUP-800

Suitable for forming Eclairs, Hard boiled, Liquid/Powder filled candies, toffees and gums. Equipped with pneumatic pressure system, belt drive and automatic lubrication system. Output up to 1700 lbs (800 kgs.) / hr.

BATCH FORMER & SIZING MACHINE BRS - 90

LATINI Batch Former and single stage to six stage Rope Sizers in various capacities, combined base ensure proper alignment of both machines at all time.

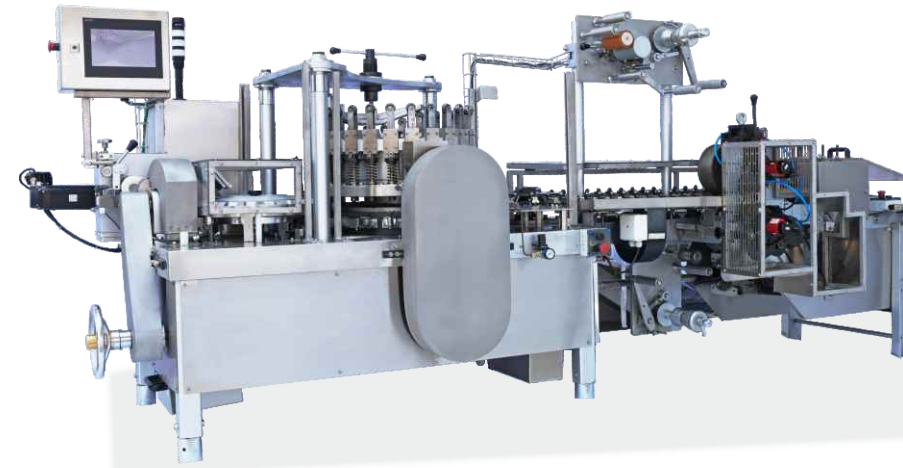

CANDY FORMING LINE

LOLLIPOP

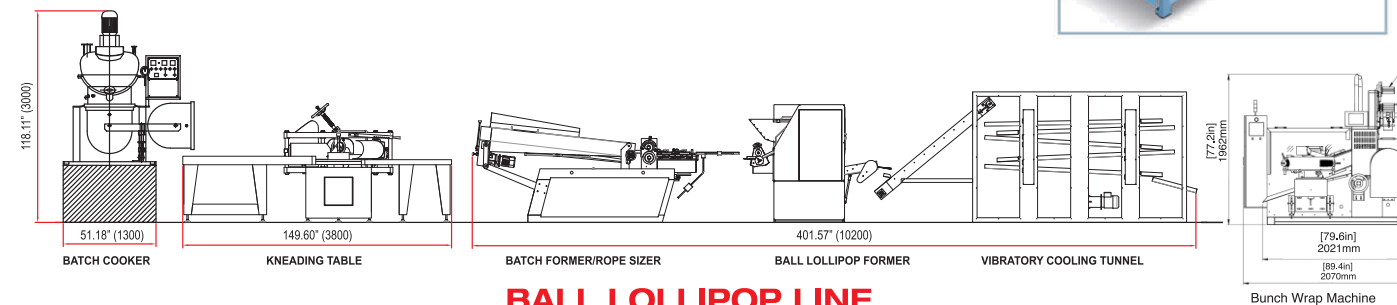

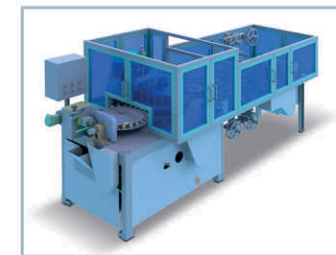

BALL LOLLIPOP FORMING MACHINE BLP-600

Built for continuous 24 hour/7 days a week operation, to form round or cylindrical lollipops with or without paste, gum or toffee filings at the speed of 600 pcs/Minutes.

CONTINUOUS DIE FLATPOP FORMING AND WRAPPING MACHINE HLM-2000

This Latini Flat lollipop machine feeds, sizes, cuts, forms, insert sticks, and crimp-wrap lollipops. This machine is equipped with servo drive system with Pneumatic pressure adjusting cam and with optional icing & print registration system. Output up to 700 pcs/min.

BALL LOLLIPOP LINE

GUM/TOFFEES

CARAMEL/CHEW COOKING STATION

The system utilizes vertical space to save footprint area, after cooking mass is transferred into the holding tank for continuous transfer to the cooling wheel for further Processing.

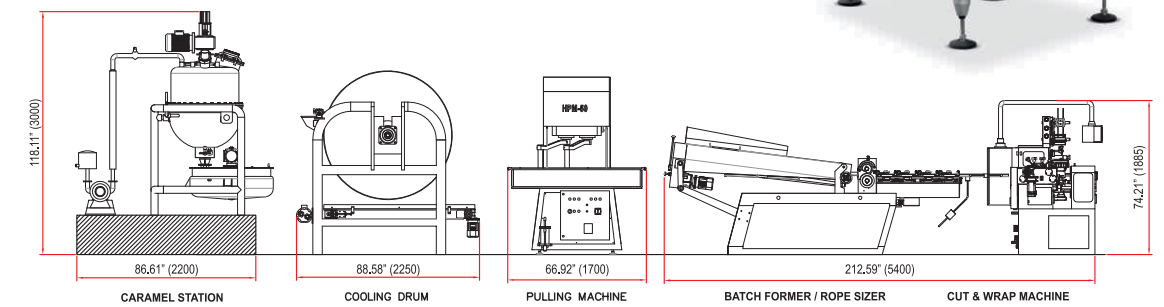

CARAMEL/CHEW/CANDY COOLING WHEEL

Cooling Wheels can cool Caramel/Chew or Hard Candy with production rate of upto 5000kg/hr. available with or without Teflon coating.

AUTOMATIC CUT & WRAP MACHINE RD-11

Suitable for Toffeee, Bubble gum or Fudge. Available in Double end twist, Single end twist, Top fold or Side fold wrapping and one end twist and lollipop stick insert twist end.

CARAMEL / CHEW / TOFFEE LINE
